

Tramline Switches & Flexity Classic Introduction

Client TransAdelaide
Site Adelaide
Budget \$ 2.4 million
Description A new world-first switch developed for the Adelaide to Glenelg tramway and was progressively installed across the network. PhoenixPM managed the delivery of the project and was also responsible for managing the delivery and commissioning phase of the Adelaide Light Rail Project, which saw the progressive introduction of the 'Flexity Classic' light rail and tram vehicles.

Pedestrian Crossing Safety Upgrade Program

Client TransAdelaide
Site Adelaide
Budget \$ 7.6 million
Description The State Government program to improve pedestrian safety on the metropolitan network includes installation of treatments including automated pedestrian gates, the Australian-first 'Another Tram Coming' multi-train warning system, and other improvements across over a third of the metropolitan network.

Salisbury Interchange Upgrade

Client TransAdelaide
Site Salisbury
Budget \$ 0.8 million
Description Project scope was to extend the existing platform including associated platform furniture, signage and lighting as well as full disability access upgrade for the interchange. Managed initial concept definition with internal stakeholders through concept and final design. Developed specification and contract documentation.

Rail Revitalisation – Electrification Infrastructure

Client Department for Transport, Energy and Infrastructure
Site Across Adelaide
Budget \$ 400 million
Description The project will provide for the electrification and track infrastructure upgrades of the metropolitan passenger network, along with upgrade of stations and interchanges. It involves the coordination of a number of staged work packages, and requires innovative planning and construction solutions to undertake works with minimal disruption to rail network.

Outer Harbour Rail Line Defects

Client TransAdelaide
Site Outer Harbour
Budget \$ 2.03 million
Description Engage with internal and external technical resources and stakeholders to formalise scope detail and develop technical specification detail. Develop request for tender documentation. Plan and manage works including materials procurement, contract management and management and integration of internal resources working with and in parallel to contractors.

Oaklands Interchange

Client
Site
Budget
Description

TransAdelaide & Department for Transport, Energy and Infrastructure
Oaklands. South Australia
\$ 9 million
Oaklands Interchange is an iconic project announced as part of the State Government's Infrastructure Plan. The Interchange will provide state-of-the-art facilities for passengers travelling to and through this key regional centre. PhoenixPM was appointed project manager for this project, which was completed in 2008.

PARIP – Intermodal Rail

Client
Site
Budget
Description

Flinders Ports
Port Adelaide River Industrial Precinct
\$ 5 million
Rail Works are to be undertaken adjacent to Berth 29 as part of the implementation of the Master Plan to allow new trade. Works comprise the construction of 1750m of rail tracks and associated earthworks, half of which is dual track, turnouts / crossovers effecting integration with the Port Flat Yard, switches and a road crossing. Phoenix was appointed project manager for this project in 2011.

Noarlunga Line Cutting & Embankments

Client
Site
Budget
Description

TransAdelaide
Noarlunga
\$ 2.6 million
The Noarlunga Centre Line Cutting & Embankments project involved the stabilisation of cuttings and construction of drainage to facilitate effective water engagement and scope development, and subsequent contract and project management of all aspects of the projects including planning, design, construction and defects correction period.

Bolivar Sludge Lagoons

Client
Site
Budget
Description

SA Water
Bolivar Lagoon
\$ 1 million
This project provided erosion protection solution to the banks of sludge lagoons B2 and B3 and return of them to service. The PhoenixPM involvement is to complete all activities relation to the development of the projects, obtain full financial approval milestone, tender and contract management.
